

Petition

- We on Main Street, want our government and business leaders to cooperate with the Main Street to make it easier, more profitable, and more enticing for Main Street people to be able to do business with each other.
- We want Main Street to be given the same benefit and privileges that Wall Street receives. We want special tax deductions, grants, millions and billions (equal to what Wall Street gets) in sponsorship money to fuel our PLANS. Basically, as a matter of fairness, we want to receive the same benefits that Wall Street and the public markets receives.
- We On Main Street have been without a Marketplace of our own for far to long. We sent all of our investment money to Wall Street – to invest in their PLANS – and they do not reciprocate. It's time for Main Street to have our PLANS invested in; we need to invest in each other's PLANS and into each other.
- Each of us deserves access to the American Financial Dream. Each of us deserves the right to prosper by having the opportunity to participate fully in the Free Enterprise system in a REAL and CONCRETE way. The Main Street Market Exchange delivers.
- I/ We _____ believe that The Main Street Market Exchange is good for America, and good for Americans. I/We encourage those who can Sponsor the Main Street Market Exchange to do so.
